## Announcement

### Pill Hill Gets New Medical Office Space

ATLANTA, GA, April 19, 2010 – **Premier Care for Women** opened the doors to their new office last month. The Design and Construction of their new medical facility was managed by CKW & Associates, LLC. The relocated gynecology clinic totals more than 11,000 square feet of medical space including 18 exam rooms, 2 procedure rooms and both an ultrasound and bone density room. Premier Care for Women office is located at 960 Johnson Ferry Road NE Suite 400 on “Pill Hill”.

"We are extremely pleased to be working with some of Atlanta's premier medical companies," said Todd Cohen, partner with CKW & Associates. "More and more medical businesses and physicians are recognizing the value of hiring a construction management partner to manage their build-out and development projects."

“Patients are our number one priority. The construction was completed in two phases over 4 months and completed 2 weeks prior to move in allowing our staff to focus on our patients with no interruption,” said Connie Lewis, Premier Care for Women practice manager. “Coming in significantly under budget was a bonus and our patients are telling their friends about the great new space!”
