## Radiant Systems expands warehouse

Alpharetta-based [Radiant Systems Inc.](#) will invest about \$450,000 in an expansion of its warehouse facilities.

Radiant (NASDAQ: RADS) provides point-of-sale hardware and software products to the hospitality and retail industry.

The company plans to add 30,000 square foot of warehouse and office space.

"Our Field Services business continues to grow, at the same time that our new hardware business is growing," Radiant spokeswoman Mary Catherine Brutz said. " This is driving a need for more raw material and finished goods storage, as well as repair and manufacturing workspace."

Construction is set to commence in April and completion is set for fall.

Atlanta-based construction management firm [CKW & Associates](#), will oversee the project.
